Education

Ph.D Economics

Mcgill university
Fall 2021-

M.A Economics

Yonsei university
Mar 2019-Feb 2021

B.A Quantitative Risk Management

Yonsei university
Mar 2014-Aug 2018

Working Papers

Firm-level Workforce Composition and Firm Dynamics

Jiyoung Kim

Predicting Labor Force Types

Rui Castro, Jiyoung Kim, Fabian Lange, Jérôme Larivière and Markus Poschke

Research Experience

Research Assistant: Predicting Labor Force Types.

Mcgill university
Summer 2023-

- Cluster workers into types given high-frequency prime age labor market experiences.
- Uses long panel survey data: NLSY (National Longitudinal Survey of Youth)
- Predicting the weakly attached types given early age information, demographics, education, health, labor market experience, etc.
- Joint work with Rui Castro, Fabian Lange, Jérôme Larivière and Markus Poschke

Research Assistant

KDI (Korean Development Institution)
August 2014- April 2016

- Knowledge Sharing Program (KSP)
- Economic policy consulting program with Belize

Presentations

Canadian Economics Association

Toronto Metropolitan University
31, May, 2024

CIREQ Lunch Seminar

McGill University
4, Nov, 2025

19th QICSS Emerging Excellence Conference

IRNS

30, Apr, 2026

20th CIREQ-CIRANO PhD Students' Conference

CIRANO

19, May, 2026

Canadian Economics Association

Simon Fraser University
29, May, 2026

T2M Student Workshop Program

HEC Montreal
1, June, 2026

Teaching Experience

Econ 208: Microeconomics Analysis & Application

TA

Mcgill university
Fall 2022

Econ 450: Advanced Economic Theory 1

TA

Mcgill university
Winter 2023, 2024, 2025, 2026

Econ 332: Macroeconomic Theory-Majors 1

TA

Mcgill university
Fall 2024

Econ 209: Macroeconomic Theory-Majors 1

TA

Mcgill university
Fall 2025

Econ 354: Macroeconomics-Honours 2

TA

Mcgill university
Winter 2026

Personal Projects

Economic Theory and application in Python

- Hopenhagen Model
- Bootstrap
- Delta hedging
- Principal component analysis

Deep learning theory and application in python

- Basic of DL models in Tensorflow
- Image analysis in Tensorflow
- Text analysis in Tensorflow
- Variational Autoencoder in Tensorflow

Technical Skills

Languages: Korean, English, Spanish

Developer Tools: Python, MATLAB, STATA

Technologies/Frameworks: Tensorflow, Keras
